

RAM Drilling Products Group-Air Compressors

Flare Boom Air Compressors

RAM DPG Air Compressors

Our Air Compressors are built specifically for Drilling Applications

Sized to efficiently combine motor horsepower and application specific cooling requirements over a range of discharge air pressures and air flows, RAM's compressors are built to last.

Self Contained with Day Tank, Emergency Shut Down and USCG SR-Muffler

Flare Burner Boom Compressors:

- Pressures 100 to 150 PSIG
- Flow: 500 to 1,600 SCFM

Skid Mounted or Containerized
